Baughman, David C., Councilman, Central Eastern District. 296

LET'S FACE IT, DOCTOR!

At any time you may have to face a ruinous liability suit.

Today, perhaps more than ever, you do need the vital protection of a broad, high limits liability insurance policy — it is certainly important to protect what you have!

Our special dentists' low cost liability insurance package plan provides higher **optional limits from**

$20,000/$60,000 up to $100,000/$300,000

and guards you, your family, your possessions, your future earnings, your reputation against the legal consequences of wrongful death or injury to others and to the property of others resulting from:

1. Accidents in or on your home premises or rented vacation premises.
2. Accidents on your office premises.
3. Accidents caused by personal acts or omissions anywhere in the world.
4. Accidents caused by your wife's acts or omissions anywhere in the world.
5. Accidents caused by your children, domestic employees, pets, animals.
6. Accidents resulting from participation in sports and personal activities.
7. Accidents causing injury to domestic employees.
8. Accidents involving damage to the clothing of patients or property of others.
9. Accidents requiring medical payments coverage which (irrespective of your legal liability) enables you to back up your expressions of sympathy and regret by paying on your behalf up to $250.00 for each person needing medical, surgical, ambulance, hospital, or funeral services. (This applies to domestic employees, guests, patients, and members of the public, excluding malpractice cases.)
10. Accidents involving professional liability for injury arising out of malpractice, error, or mistake in rendering or failing to render professional services in the practice of dentistry committed by you or by any person for whose acts or omissions you are legally responsible, except as a member of a partnership which can be included for an additional charge.

THIS PLAN WAS SPECIALLY ARRANGED FOR SOCIETY MEMBERS ONLY — THE COST IS SURPRISINGLY LOW

WE SAY—DON'T BE CAUGHT WITH YOUR LIMITS DOWN! It is better to have adequate limits and not need them—than to need them, but not have them.

If we have not already served you, we recommend that you complete and return the application previously sent you in membership mailings * * * So important is this protection that we urge you to contact us immediately and ask for a duplicate brochure and application if you cannot find your copy.

USE OUR COMPLETE

Ceramic Service

FOR YOUR

JACKETS *and* BRIDGES

BAKED porcelain restorations are durable and esthetic and when processed by skilled ceramic technicians exhibit all those qualities of long service, excellent function, and lifelike appearance you and your patients value so highly.

Our service is versatile and prompt. We can provide you with fine porcelain jackets, bridges, facings, veneers and other ceramic restorations, finely carved, exquisitely shaded, subtly stained and accurate in fit.

Our porcelains—Austenal Porcelains—are the best, proved at the bench and in oral service.

*DE *hinge* . . .

NEW . . . DIFFERENT . . . EFFECTIVE STRESS RELIEVING ATTACHMENT

In contrast to the complicated two-piece soldered stress breakers, the new DE hinge is a tiny precision unit that becomes an integral part of a one-piece casting.

Used exclusively on Vitallium® free-end partial dentures, the DE hinge is an effective safeguard during tissue change and a protective measure against undue abutment stress.

The DE hinge is completely concealed while maintaining smooth function—a research development that combines all the advantages of Vitallium, the most advanced clasp design and the best stress-relieving method.

CONFIDENCE
CANNOT BE BOUGHT!

No manufacturer can buy, on the open market, confidence in his product. Whatever confidence his product may enjoy must come from the purchaser as a result of faith in the product. And this confidence never comes overnight. It's the result of continued performance, high quality and honest presentation by the producer.

We at Cook-Waite know these things to be true and, hence, strive continually to produce products that will merit the confidence of the dental profession.
